

A Premium Organic Based Fertilizer

15-2-8
with Methelyne Urea

Fine & Coarse
Grade

Net Wt. 50 Lbs.

GUARANTEED ANALYSIS

Total Nitrogen (N)	15.0%
0.28% Ammoniacal Nitrogen	
1.00% Urea Nitrogen	
9.20% Water Insoluble Nitrogen*	
4.52% Water Soluble Nitrogen**	
Available Phosphate (P ₂ O ₅)	2.0%
Soluble Potash (K ₂ O)	8.0%
Calcium (Ca)	2.0%
Sulfur (S)	3.0%
3.00% Combined Sulfur (S)	

Source of Nutrients:

Hydrolyzed feather meal, methylene urea, meat meal, bone meal, sulfate of potash and blood meal.

* This product contains 9.20% slow release water insoluble nitrogen from hydrolyzed feather meal, meat meal and methylene urea.

** This product contains 4.52% slowly available water soluble nitrogen from methylene urea.

General Information:

Eighty percent of the product consists of Nature Safe Natural and Organic Fertilizer. Nature Safe, through its high quality proteins will begin to release in 7 to 10 days and will slowly release nitrogen for the next 7 to 8 weeks. Twenty percent of Nature Safe 15-2-8 is composed of methylene urea that is comprised of varying lengths of methylene urea polymers with an emphasis on the shorter length, more soluble components. Through this combination, the methylene urea continuously releases nitrogen through the 16th week after application. This product combines the consistent and sustained feeding of methylene urea with the efficiency of Nature Safe, providing optimum soil and plant nutrition. Response time is based on applications of 1 lb. of actual N.

Directions for Use:

Established Turfgrass: Use as a topdressing for tees, greens, roughs and fairways or any established turf. Apply 3.3 to 6.7 lbs. per 1,000 sq. ft. (0.5 to 1 lb. of actual N). Three to four applications per year are recommended. Covers 7,500 to 15,000 sq. ft.

Fine grade: Suggested for use on turf mowed at heights between 1/8" and 1/2".

Coarse grade: Suggested for use on turf mowed at heights 1/2" or greater.
