Sulfur (S) .....	5.0%
5.00% Combined Sulfur (S)	

**Source of Nutrients:**

Hydrolyzed feather meal, meat meal, bone meal, blood meal and sulfate of potash.

\*This product contains 6.3% slow release nitrogen from hydrolyzed feather meal and meat meal.

**General Information:**

Nature Safe 7-1-14 High Potassium Fertilizer is formulated to increase the turf tolerance for summer and winter stress conditions, while providing excellent color and turf density. This fertilizer contains humus to aid in the decomposition of residues within the soil making nutrients more available for plant uptake. The various meat by-product meals within Nature Safe 7-1-14 make for a healthy soil and, in turn, healthy turf. The turf becomes more tolerant to heat and drought due to an improved soil structure. Nature Safe 7-1-14 is non-burning and very low in salt. Virtually all of the product is utilized through complete plant uptake, minimal leaching and volatilization. Nature Safe acts as a sponge in retaining moisture and nutrients for plant use, especially in sandy soils. In addition, Nature 7-1-14 is an ideal product for areas with potassium deficiencies.

**Directions for Use:**

**Established Turfgrass:** Use as a topdressing for tees, roughs and fairways or any established turf. Apply 7 to 14 lbs. per 1,000 sq. ft. (0.5 to 1 lb. of actual N). Three to four applications per year are recommended. Covers 3,500 to 7,000 sq. ft.

**Fine grade:** Suggested for use on turf mowed at heights of 1/2" or lower.

**New Turfgrass Seeding:** Incorporate 14 lbs. per 1,000 sq. ft. into the top 2-4 inches of the seedbed before seeding or sodding.
