**General Information:**

Nature Safe 8-5-5 Agriculture Fertilizer is designed to deliver a balanced fertility package with primary and secondary nutrients ideal for lawns, landscapes and organic crops. Nature Safe 8-5-5 consists of various proteins such as meat, bone and blood meals that provide slow release nitrogen over an 8-12 week period. Nature Safe 8-5-5 contains 4.5% calcium, an essential nutrient for plant and soil health. Carbohydrates in the form of simple sugars and starches are added to stimulate microbial activity. Humus is included to buffer the soil against extreme salt concentrations and improve soil structure for tolerance during heat and drought conditions. Virtually all of the product is utilized through plant uptake, with minimal leaching and volatilization. Nature Safe 8-5-5 is OMRI listed and allowed under NOP guidelines validating its use in the production of organic certified crops.

**Directions for Use:**

For fertilizer application rates suitable for your geographical area or the maximum allowable non-nutrient application rates per acre, consult a trained soil specialist.
